Title: Managemnt

08.02.2010

Task : Brotherhood School

(schulleiter)

We are a school which has the education of vocation in Ankara- Turkey.

In our school;

- Technical Lycee Education ,
- Vocational Lycee Education ,
- Apprenticeship Education and Open Vocational Lycee education has been given

At the same time , we are one of the ten Fiat Laboratory schools in Turkey. Our students who have the education in the Fiat laboratory are training or having application opportunity in Fiat services, and afterwards they are given a job when they graduate.

Our school is dealing with EU projects since 2004. So we have completed our project twice in Germany and once (this year) in Turin with our students` training.

Today, the states have had an agreement on union and developing international relations among them. For example , MAN has an investmentof $\frac{1}{4}$ in Turkey and Turkish staff have been working there.Also, Fiat –Turkey partnership is a good example for this.These examples show that countries` need a personnel training, cultural exchange and cooperation between countries` necessity is inevitable.We especially develop the idea of brotherhood of schools related to information and culture exchange.Our aim here is;

- At the first step, (in English) we can introduce our countries` history, geography, cultural values
- At the second step students and teachers can communicate or correspond in the web
- At the third step, national values or days can be introduced via the meetings or facilities in our schools
- And at the final step, If any project is prepared consisting EU can be done together.

We gave in a copy of this script to the school in Turin-Italy and informed them about the same subject.

And we want to have you as a partner (Germany,Turkey, Italy)in this idea and looking forwars to hearing from you.

We as a school of Guvercinlik Vocational High School have the following website (www.guvercinlikeml.com) and will have a title in the front page for this Brotherhood Project consisting the introducing the schools in English and meanwhile we will contact with you thans to a teacher who is appointed for this project.

With the hope that you will contribute and interest as much as us.

Yours faithfully,
